Update From The Field

March 2022

Every month, Clean Horizon's team of energy storage experts delivers an analysis of key data and trends affecting the energy storage industry worldwide. This monthly report updates and analyzes new relevant regulations, monitors commissioned and announced projects, and provides specific focus on key market trends which are likely to have a direct impact on industry stakeholders.

Table of Contents

Executive summary.....	5
1. New regulations and initiatives discussed this month	6
1.1. Europe.....	6
2. Projects updates and announcements.....	9
2.1. Overview of the 2021 and 2022 market for utility-scale energy storage projects	9
2.2. Projects announced or contracted this month.....	10
2.3. Projects commissioned this month	12
2.4. Tenders this month	13
3. Focus of the Month: The Canadian energy storage market.....	15
3.1. Despite current regulatory hurdles, Alberta is paving the way for energy storage.....	16
3.1.1. The regulatory framework is ongoing an overhaul to account for better energy storage participation in the wholesale market	16
3.1.2. The spike of electricity prices is transforming a once not-so-interesting revenue into an opportunity	17
3.1.3. Ancillary services: the block configuration and unclear rules hinder full market participation.....	19
3.1.3.1. Current market participation conditions and other non-market products	20
3.1.3.2. The Fast Frequency Response: a new opportunity for novel technologies like storage.....	21
3.2. New Ontario market rules enable storage to participate in the electricity market.....	22
3.2.1. Accessibility to storage	22
3.2.2. The revenue streams	23
3.2.2.1. The energy market.....	24
3.2.2.1. The reserve service	24
3.2.2.2. The regulation service.....	25
3.2.2.1. Reactive Support and Voltage Control Service.....	25
3.2.2.2. Capacity auction.....	25
3.2.3. Global Adjustment (GA): electricity bill reduction.....	26
3.3. Business Model of an energy storage system in Ontario	27
3.3.1. Front-of-the-meter storage in Ontario.....	28
3.3.2. Behind-the-meter storage in Ontario.....	29

Table of figures

Figure 1. Results of Italy's latest capacity market auction	9
Figure 2: Utility-scale energy storage projects announced/contracted and commissioned in 2021 and 2022 (ongoing)	10
Figure 3. Overview of the Canadian energy storage environment	15
Figure 4. Distribution of hourly pool prices over 2018 - 2021.....	18
Figure 5. Energy storage resources registration on the Ontario electricity market	23
Figure 6. Revenue streams available for energy storage facilities in Ontario	24
Figure 7. 2022 capacity auction timeline	26
Figure 8. Electricity storage facilities involved in the new market rules	27
Figure 9. Financial assumptions for the business case in Ontario	28
Figure 10. Different revenues of the IESO-administrated Market FTM storage facility (not eligible for Global Adjustment)	29
Figure 11. Only Global Adjustment-based project revenue (BTM)	29
Figure 12. Revenue based on the number of peaks shaved.....	30

List of tables

Table 1. Average annual pool prices (CAD/MWh) in Alberta	17
Table 2. Volumes of procured active operational reserves in 2021	20
