The Energy Storage Experts

Update from the Field – January 2019

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
New regulations and initiatives discussed this month	4
Americas	4
United States	4
Europe	4
United Kingdom	4
France	4
Project updates and announcements	5
Overview of the 2019 market for utility-scale energy storage projects	5
Projects announced or contracted this month	5
Asia	6
Europe	6
Americas	6
Africa	7
Projects commissioned this month	7
Americas	8
Europe	8
Asia	9
Tenders this month	9
Australia & Oceania	9
Africa	10
Focus of the month: The Middle-East, an emerging market with limited opportunities	11
Lebanon: A dysfunctional power system trying to get back on its feet	11
An evolving role of the private sector	13
Emerging solar-plus-storage projects give a glimpse of hope for the current electricity crisis	13
The Capital Investment Plan: a clear roadmap that encourages third-party investments and a restructuring of the electricity tariffs	14
Israel: PV-plus-Storage likely to achieve a specific tariff in 2019	15
Key take-away on energy storage: new regulations are paving the way for an efficient energy storage adoption	15
Israel's power status	16
Liberalization process	17
Electricity sector changes	17
Jordan: An emerging market with a strong systemic need for storage	18
Key take-away on energy storage	18
The Jordanian power status: the transformation to a self-sufficient power system	19

Update from the Field – January 2019

A monthly analysis note from the energy storage experts

Egypt: A huge potential with no concrete plans for the deployment of battery storage	22
The United Arab Emirates: An early adopter country which has stalled on storage deployments	23
Key take-away on energy storage	23
Saudi Arabia: A disappointing behemoth	24
Key take-away on energy storage	25

Table of figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2018 and 2019 (ongoing).....	5
Figure 2: Opportunities for energy storage by country	11
Figure 3. A comparison between peak generation and demand in Lebanon	12
Figure 4. Electrical Capital Investment Plan projects.....	14
Figure 5. Planned Non-Conventional Generation Sources	15
Figure 6. Energy storage opportunities in Lebanon.....	15
Figure 7. Power production and fuel share in the electricity generation	17
Figure 8. Energy storage opportunities in Israel.....	18
Figure 9. Generated energy by resource type in Jordan – 2017	20
Figure 10. Jordan's Vision 2025 target scenario	21
Figure 11. Energy storage opportunities in Jordan	22
Figure 12. Energy storage opportunities in Egypt.....	23
Figure 13. Energy storage opportunities in the UAE.....	24
Figure 14. Energy storage opportunities in Saudi Arabia.....	25
