The Energy Storage Experts

Update from the Field – October 2021

A monthly analysis note from the energy storage experts

Table of contents

Executive summary	2
New regulations and initiatives discussed this month	5
Americas	5
United States:	5
United States: Illinois	5
Australia	5
Asia	5
Turkey	5
Project updates and announcements	6
Overview of the 2021 market for utility-scale energy storage projects	6
Projects announced or contracted this month	6
Europe	7
Projects commissioned this month	8
Americas	8
Tenders this month	9
Europe	9
Focus of the month: the Nordics - the new wave of storage deployment in Europe	11
1. The Nordics electricity context and products	11
a) The electricity mix in each country of the Nordics	11
b) BESS projects announced, in construction and commissioned	11
c) FCR in the Nordics	12
d) Fast Frequency Response (FFR) in the Nordics	13
2. Revenue streams available for energy storage systems in the Nordics	14
a) Finland	15
b) Sweden	19
c) Denmark	21
3. Business case	21
a) Per service	22
b) Services Combined	22

Update from the Field – October 2021

A monthly analysis note from the energy storage experts

Table of figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2020 and 2021 (ongoing).....	6
Figure 2: Electricity generation mix in the Nordic countries.....	11
Figure 3: Frequency Containment Reserve products available in the Nordics countries	12
Figure 4: Activation of the FFR.....	14
Figure 5: FCR-N prices for the yearly and hourly market over the past 5 years in Finland.....	16
Figure 6: FCR-D prices for the yearly and hourly market over the past 5 years in Finland.....	17
Figure 7: Percentage of hours in the year an FFR volume is activated (Oct 2020 - Oct 2021).....	18
Figure 8: FCR-N and FCR-D average hourly prices in Sweden	20
Figure 9: Percentage of hours in the year an FFR volume is activated in 2020	21

Table of tables

Table 1: Total capacities of storage projects in CHESS along with the operational capacity installed	11
Table 2: Table of the required volumes for FCR-N and FCR-D in the Nordics	13
Table 3: Table presenting the maximum times for full activation for different frequency deviations	14
Table 4: Table presenting the volume requirement for FFR in the Nordics	14
Table 5: Table presenting the requirements in capacity and energy for each service provided	15
Table 6: Table presenting the viability of a storage project in Finland	22
Table 7: Table presenting the viability of a storage project in Sweden.....	22
Table 8: Table presenting the viability of a storage project for participation in all the ancillary services markets.....	23
