Update From The Field

April 2023

Every month, Clean Horizon's team of energy storage experts delivers an analysis of key data and trends affecting the energy storage industry worldwide. This monthly report updates and analyzes new relevant regulations, monitors commissioned and announced projects, and provides a specific focus on key market trends which are likely to have a direct impact on industry stakeholders.

Table of Contents

Content

Executive summary	5
1. New regulations and initiatives discussed this month	6
1.1. Europe.....	6
1.2. North Americas	7
1.3. Middle East	9
2. Project updates and announcements	9
2.1. Overview of the 2022 and 2023 markets for utility-scale energy storage projects	9
2.2. Projects announced or contracted this month.....	10
2.3. Projects commissioned this month	11
2.4. Tenders this month	12
3. Focus of the month: The business model of energy storage in saturated markets	13
3.1. France FCR and UK ancillary services market saturation.....	13
3.1.1. France	13
3.1.2. Great Britain ancillary services market saturation	19
3.2. The future of saturated markets	25
3.2.1. Price structure in saturated markets.....	25
3.2.2. Risk of progressive market saturation.....	28
3.2.3. Possible evolutions of saturated markets	29
