Update from the Field

July 2022

ONLINE SESSION

July 22nd, 2022 / 10am – 11am (CEST)

Update From The Field

July 2022

Every month, Clean Horizon's team of energy storage experts delivers an analysis of key data and trends affecting the energy storage industry worldwide. This monthly report updates and analyzes new relevant regulations, monitors commissioned and announced projects, and provides a specific focus on key market trends which are likely to have a direct impact on industry stakeholders.

Table of Contents

Table of Figures.....	3
Executive summary.....	4
1. New regulations and initiatives discussed this month	5
1.1. Europe.....	5
1.2. Asia	6
2. Project updates and announcements	6
2.1. Overview of the 2021 and 2022 markets for utility-scale energy storage projects	6
2.2. Projects announced or contracted this month.....	7
2.3. Projects commissioned this month	9
2.4. Tenders this month	10
3. Focus of the month: the Texan Energy Storage Market: a new eldorado ?.....	12
3.1. Overview of the electricity market.....	12
3.1.1. Electricity mix.....	13
3.1.2. Seen as a key market for storage, ERCOT has been attracting a considerable number of players.....	14
3.2. Energy storage systems make their case thanks to high arbitrage and frequency control revenues	15
3.2.1. The current regulatory framework is set to evolve to ensure optimal storage participation.....	15
3.2.2. The ERCOT ancillary services market is creating new services in which batteries can perform greatly	16
3.2.3. The volatility of the energy market makes a good case for energy storage systems	18

Table of Figures

Figure 1. Utility-scale energy storage projects announced/contracted and commissioned in 2021 and 2022 (ongoing).....	7
Figure 2. ERCOT Operational Zone.....	13
Figure 3. Battery storage interconnection queue (as of June 2022, ERCOT).....	14
Figure 4. Main applications for energy storage in Texas	16
Figure 5. Daily average price spreads in 2021.....	20
