Update From The Field

June 2023

Every month, Clean Horizon's team of energy storage experts delivers an analysis of key data and trends affecting the energy storage industry worldwide. This monthly report updates and analyzes new relevant regulations, monitors commissioned and announced projects, and provides a specific focus on key market trends which are likely to have a direct impact on industry stakeholders.

Table of Contents

Executive summary.....	4
1. New regulations and initiatives discussed this month	5
1.1. Europe.....	5
2. Project updates and announcements	8
2.1. Overview of the 2022 and 2023 markets for utility-scale energy storage projects	8
2.2. Projects announced or contracted this month.....	9
2.3. Projects commissioned this month.....	10
2.4. Tenders this month.....	11
3. Focus of the month: The Greek 1000-MW standalone storage tender scheme	13
3.1. Context of the tender	13
3.1.1. Greek goals and Recovery Fund grant.....	13
3.1.2. The 2023 tender scheme	15
3.1.3. Operating aid	16
3.2. Tender requirements	17
3.2.1. Eligibility requirements	17
3.2.2. Technical requirements	18
3.3. Evaluation criteria	19
3.4. Clean Horizon's recommendations	19

Table of Figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2022 and 2023 (ongoing)	8
Figure 2: Greek energy storage targets timeline	13
Figure 3: Companies with the most cumulative storage licenses (in MW)	14
Figure 4: Waterfall highlighting the Minimal revenue computation methodology	20
Figure 5: Minimal reference revenue to breakeven over 10 years for different storage durations	21
