Update From The Field

October 2023

Every month, Clean Horizon's team of energy storage experts delivers an analysis of key data and trends affecting the energy storage industry worldwide. This monthly report updates and analyzes new relevant regulations, monitors commissioned and announced projects, and provides a specific focus on key market trends which are likely to have a direct impact on industry stakeholders.

Table of Contents

Executive summary	5
1. New regulations and initiatives discussed this month	6
1.1. America.....	6
1.2. Europe.....	8
2. Project updates and announcements	10
2.1. Overview of the 2022 and 2023 markets for utility-scale energy storage projects.....	10
2.2. Projects announced or contracted this month.....	11
2.3. Projects commissioned this month	12
2.4. Tenders this month.....	13
3. Focus of the month: What is the impact of support schemes for storage on the European markets?..	14
3.1. Storage Push in Europe: there is a miss-alignment between political objectives & market signals	14
3.2. Existing mechanisms that support storage	15
3.2.1. Capacity mechanism	16
3.2.2. CAPEX Subsidies under the recovery and resilience facility	18
3.2.3. Recurring revenues	19
3.2.3.1. Contract for difference for storage	19
3.2.3.2. Wholesale revenue premium.....	20
3.3. These mechanisms support the bankability of storage projects, but in many situations also accelerate the cannibalization of lucrative markets	20
3.4. The paradigm of storage development strategy is likely to be deeply modified by the subsidy schemes	23

Table of Figures

Figure 1: Utility-scale energy storage projects announced/contracted and commissioned in 2022 and 2023 (ongoing) 10

Figure 2: 2030 objectives compared to 2023 installed capacity 15

Figure 3 Battery system capacity market remuneration for the last available auction held in the corresponding country 18

Figure 4: Percentage of overall project costs covered by considered scheme depending on country 21

Figure 5: Ancillary services market depth vs volume of storage deployed thanks to scheme 23
